WORK EXPERIENCE

Graphic Design Intern, WAN Company

- Worked closely with the marketing and product development teams to ensure designs aligned with company branding and messaging.
- Created three designs for different products for WAN Company
- Utilized Adobe Creative Suite (Photoshop, Illustrator, and InDesign) to design marketing materials, including brochures, social media graphics, and website banners.
- Completed a course in network fundamentals, where I gained knowledge about routers, switches, and network protocols.
- Developed an understanding of network infrastructure and troubleshooting techniques, which helped me collaborate more effectively with WAN Company's IT team.

EDUCATION AND TRAINING

JavaScript Course

- I have gained a thorough understanding of the language and its applications in creating dynamic and interactive web pages. Throughout the course, I gained hands-on experience with advanced techniques such as event handling, object-oriented programming, and asynchronous programming. Additionally, I developed proficiency in popular frameworks and libraries such as React.
